HEARING RESEARCH

Vol. 145, Nos. 1–2
July 2000

CONTENTS

Cited in: Biological Abstracts (BIOSIS); Chemical Abstracts; Current Contents/Life Sciences; Current Awareness in Biological Sciences (CABS); Excerpta Medica (EMBASE); Index Medicus; INSPEC; PASCAL M; Reference Update

Review

J.J. Simpson and W.E. Davies (UK)
A review of evidence in support of a role for 5-HT in the perception of tinnitus 1

Research Papers

M.F. Fontilla and E.H. Peterson (USA)
Kinocilia heights on utricular hair cells 8

D.K. Brown, D.M. Bowman and B.P. Kimberley (Canada)
The effects of maturation and stimulus parameters on the optimal f_2/f_1 ratio of the $2f_1-f_2$ distortion product otoacoustic emission in neonates 17

P.J. Kolston (UK)
The importance of phase data and model dimensionality to cochlear mechanics 25

H. Saito, J.M. Miller and R.A. Altschuler (Japan, USA)
Cochleotopic fos immunoreactivity in cochlea and cochlear nuclei evoked by bipolar cochlear electrical stimulation 37

N. Morand, S. Khalfa, P. Ravazzani, G. Tognola, F. Grandori, J.D. Durrant, L. Collet and E. Veuillet (France, Italy, USA)
Frequency and temporal analysis of contralateral acoustic stimulation on evoked otoacoustic emissions in humans 52

K. Tabuchi, S. Tsuji, A. Hara and J. Kusakari (Japan)
Effect of calmodulin antagonists on the compound action potential of the cochlea 59

J.O. Pickles and W.R.A. van Heumen (Australia)
Lateral interactions account for the pattern of the hair cell array in the chick basilar papilla 65

T. Iwagaki, T. Suzuki and T. Nakashima (Japan)
Development and regression of cochlear blood vessels in fetal and newborn mice 75

H.P. Wit, T.J. Warmerdam and F.W.J. Albers (The Netherlands)
Measurement of the mechanical compliance of the endolymphatic compartments in the guinea pig 82

G.-D. Chen, M.L. McWilliams and L.D. Fechter (USA)
Succinate dehydrogenase (SDH) activity in hair cells: a correlate for permanent threshold elevations 91

A.G. Coppens, A. Résibois and L. Poncelet (Belgium)
Immunolocalization of calbindin D28k and calretinin in the dog cochlea during postnatal development 101

CONTENTS Direct

This journal is part of **ContentsDirect**, the ***free*** alerting service which sends tables of contents by e-mail for Elsevier Science books and journals. You can register for **ContentsDirect** online at: **www.elsevier.nl/locate/contentsdirect**

0378-5955(200007)145:1/2;1-B

(Contents continued from back cover)

H.C. Ou, B.A. Bohne and G.W. Harding (USA)
Noise damage in the C57BL/CBA mouse cochlea 111

H.C. Ou, G.W. Harding and B.A. Bohne (USA)
An anatomically based frequency–place map for the mouse cochlea 123

M. Braun (Germany)
Inferior colliculus as candidate for pitch extraction: multiple support from statistics of bilateral spontaneous otoacoustic emissions 130

R.M. Lord, R.P. Mills and E.W. Abel (UK)
An anatomically shaped incus prosthesis for reconstruction of the ossicular chain 141

K.-i. Watanabe, A. Hess, C. Zumegen, E. Stennert, W. Bloch, K. Addicks and O. Michel (Germany, Japan)
Changes of the compound action potential (CAP) and the expression of inducible nitric oxide synthase (iNOS/NOS II) in the cochlea under the inflammatory condition 149

D.Z.Z. He, J. Zheng, R. Edge and P. Dallos (USA)
Isolation of cochlear inner hair cells 156

A. Knief, M. Schulte, O. Bertrand and C. Pantev (France, Germany)
The perception of coherent and non-coherent auditory objects: a signature in gamma frequency band 161

J.R. Ison and G.P. Bowen (USA)
Scopolamine reduces sensitivity to auditory gaps in the rat, suggesting a cholinergic contribution to temporal acuity 169

R.G. Rutkowski, M.N. Wallace, T.M. Shackleton and A.R. Palmer (UK)
Organisation of binaural interactions in the primary and dorsocaudal fields of the guinea pig auditory cortex 177

M.E. Chertoff, D. Lerner, D. Amani-Taleshi and Y. Nagai (USA)
Characterizing non-linearity in the cochlear microphonic using the instantaneous frequency 190

Short communication

D.E. Lerner, M.E. Chertoff and D. Amani-Taleshi (USA)
Mathematical decomposition of the round window potential 203
